ASSESSORS' REPORT (*continued*)

The valuation of all buildings in the town was increased approximately 20% this year. This was done in order to bring the assessed valuation nearer to the true value of properties as evidenced by comparison of same and examination of transfers over a period of years and with approval of the State Bureau of Taxation. This increase brought the town valuation up to approximately that as held by the State for this town. Also it was felt this conforms nearer to the average of other towns of similar size, property and industry.

The result was a decrease in the tax rate of \$11.00 per \$1,000. It is generally agreed by tax authorities that an assessed valuation of higher percentage of the true value of property and a lower tax rate more accurately represents the financial conditions of the town. It is also believed and claimed to have proven true in other towns and states that is an advantage in selling property to have a lower tax rate and a higher valuation.

Public Health Nursing -- Annual Report

1947

The following is a report of the public health nursing service in the town of Warren in the past year, submitted to the board of Selectmen and townspeople.

These statistics will indicate the types of services rendered and the number of visits made:

Number of visits made to the town	28
Number of visits made to the schools	22
Number of visits made to maternity patients	4
Number of visits made to infants	48
Number of visits made to preschools	21
Number of visits made to crippled children	7
Number of visits made to morbidity patients	18
Number of visits made to tuberculous patients and contacts	9
Number of hearing tests by audiometer to school children	88
Number of school immunization clinics	2
Number of Child Health Conferences	4
Number of immunizations given by physician at school clinics and Child Health Conferences:	
Smallpox	71
Diphtheria	101
Whooping Cough	34

The facilities of three Crippled Children's clinics and two chest X-ray clinics at Rockland have been made available to persons, being followed by nursing services, without cost to the patients.

PUBLIC HEALTH NURSING (*continued*)

The school immunization program usually carried on in the spring was postponed until fall on the recommendation of Dr. Campbell, Health Officer, because of the large incidence of illnesses among students in the spring.

Plans are being made through the Health Council for Health examinations of students of alternate elementary grades, to start in the spring. It is hoped that parents will co-operate in this program and that as many mothers will be present for their child's examination as possible. Many towns are carrying on a similar program and getting physical defects found in young people corrected much earlier. It should also teach students the importance of having yearly health examinations after they leave school.

I wish to express my very great appreciation to the selectmen who have willingly assisted and advised in problems related to family health and welfare when called. Also to Mrs. Helen Maxcy, Chairman of the Health Council, and the members of that organization who have assisted so faithfully with both the school and preschool programs, and for their part in the success of the meeting of County Health Councils at Rockport.

It is a pleasure to look forward to the coming year with the continued assistance of these and other interested townspeople.

Respectfully submitted,

ADA W. McCONNELL, R. N.
State Field Nurse

Report of the Superintendent of Schools

To the Superintending School Committee and Citizens of Warren:

I am pleased to submit the following report for the municipal year 1947-48.

Your schools are operating at a high level of efficiency. The most important contributions to your school system are being made by your capable and efficient teachers. The system has been fortunate in being able to retain practically all of its experienced teachers. The only major change has been the election of Miss Sylvia Gray to fill the vacancy which was caused by the resignation of Miss Gertrude Rowland.

There are four problems in relation to your elementary schools which I would like to call to your attention. The problems have to do with (1) the water supply for the New Elementary Building, (2) conveyance facilities, (3) housing of the lower four grades, and (4) the increase in enrollment which may be expected during the next few years. There will be articles in the warrant which will either directly or indirectly lead to an eventual solution of these problems.

The water supply for the New Elementary Building is inadequate. The source of the water not only fails to provide a sufficient quantity, but the water is not always suitable for drinking purposes. Tests have shown that the water could not be used for drinking purposes for a time during the fall of each of the past two years. The supply failed entirely for several weeks during last fall. This problem will become even more critical after the proposed addition is made to the building. If a practical solution can be found, an article will appear in the warrant for your consideration.

SUPERINTENDENT'S REPORT (*continued*)

The present conveyance facilities on some of the routes have been able to continue in use because they were in operation before the present regulations became effective. Conveyance costs will increase when any of the present facilities have to be replaced. It is impossible to estimate accurately the change in conveyance costs for the coming year, but a reasonable allowance has been made in the budget.

You are fully aware of the need of providing better accommodations for the first four grades. You have made an appropriation toward an elementary building fund at each of the last two town meetings. Any questions related to this problem that may come up at this year's annual meeting deserve your serious consideration. The need becomes greater each year as the old buildings continue to go down and the enrollment in the lower grades steadily increases. The full effect of the increased enrollment on grades one and two will probably begin to be felt by 1950 or 1951. If the number of births in Warren is taken as an indication of the number which will be entering grade one five or six years later, it is possible that there may be nearly thirty entering the first grade by 1950. This anticipated increase in enrollment makes it urgent that you continue to plan for an addition to the New Elementary Building.

The interior of the high school building was completely re-decorated and new light fixtures were installed by the Academy Trustees during the past summer. The new lights and the lighter color of the walls have greatly improved the study conditions. Even though the future of a small high school is uncertain, the expense of the improvements made during the past summer was money well spent. Every student and teacher will benefit by the improvement in the lighting.

The budget for next year and the usual financial and statistical data follow this report. The 1947 tax rate for school main-

SUPERINTENDENT'S REPORT (*continued*)

tenance in Warren was \$20.07 per \$1000 of Valuation as compared with an average for the state of \$22.43 per \$1000.

In closing this report I want to express my appreciation for the cooperation and support that I have received during the three years that I have been associated with your school system.

Respectfully submitted,

EARLE M. SPEAR,
Superintendent of Schools.

STATE OF MAINE

STATE DEPARTMENT OF AUDIT

AUGUSTA

February 6, 1948

Board of Selectmen

Warren,

Maine

Gentlemen:

This letter acknowledges your request of February 6 for an audit of the books of the Town of Warren covering the 1947-48 fiscal transactions.

Due to previous commitments, it will not be possible to complete this examination prior to the annual town meeting in March. This matter will, however, have our prompt attention at the earliest possible date.

Very truly yours,

FRED M. BERRY,
State Auditor

AUDITOR'S REPORT (*continued*)

STATE OF MAINE
STATE DEPARTMENT OF AUDIT
AUGUSTA

April 28, 1947

Board of Selectmen
Warren,
Maine

Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the Town of Warren have been audited by Auditors C. G. Hawes and M. G. Allen for the period February 3, 1946 to January 31, 1947 inclusive.

The examinations was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been appropriately handled, with such exceptions as may be noted in the Comments.

Exhibits and schedules incorporated in this report impartially present the financial position of the Town and the result of its operations for the period designated. A recommendation has been made which, we believe, is worthy of your consideration.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted.

Very truly yours,

FRED M. BERRY,
State Auditor

COMMENTS

Re: Audit of Accounts—Town of Warren

February 3, 1946 to January 31, 1947

Cash

All receipts as issued by the Treasurer were examined and found to be properly recorded. All monies representing these receipts had been promptly deposited.

Expenditures were made by check from properly authorized warrants drawn by the Selectmen.

The cash balance reconciled with the bank statement at the end of the year.

Accounts Receivable

This account totals \$318.76 and represents items due from the State and other towns for pauper supplies furnished.

Taxes Receivable

The 1946 commitment of taxes to the Collector was added and found to agree with the warrant of the Assessors. This commitment was accounted for by cash paid the Treasurer, abatements and discounts, or remained unpaid as reflected by the records of the Collector.

Payments received on prior years' unpaid taxes were found to have been applied against the proper accounts.

Tax Liens

Payments received on tax liens were found to have been applied against the proper items. The outstanding liens on file were examined.

AUDITOR'S REPORT *(continued)*

Tax Deeds

No payments were received on tax deeds during the year.

Tax Acquired Property

During the year, tax liens totaling \$709.98 were transferred to this account.

Capital Reserve Fund

At the annual town meeting, it was voted to raise and appropriate the amount of \$2,000 toward a School Building Fund. It was further voted that all money obtained from the sale of the Anderson, Pleasantville and Highland school buildings be added to this Fund. The Highland and Anderson school buildings were sold for \$300 and \$250 respectively and these amounts, together with the appropriation of \$2,000, were deposited in a savings account.

Due Governmental Agencies

This account is made up of deductions for Withholding Taxes and Teachers' Retirement Fund which are payable in the 1947-48 year.

Trust Funds

The investments of the various funds were examined. The income was checked and \$409.59 was found to be in the General Fund at the end of the year.

In examining the investments, it appeared that some do not conform with the requirements set forth in Section 106, Chapter 80 of the Revised Statutes of 1944.

Deficit

At the close of the year, the Net Deficit amounted to \$4,532.11 as compared to an Unappropriated Surplus of \$650.51 at Feb-

AUDITOR'S REPORT (*continued*)

ruary 3, 1946. The principal factor contributing to this change was the overdraft of \$4,638.56 in the Snow Removal account. A complete analysis of this change is shown on Exhibit E of this report.

General

The 1946 excise tax receipts, Nos. 144 to 633, and those for 1947, No. 1 to 125, were checked from the copies of the receipts retained by the Collector and all monies were found to have been deposited with the Treasurer.

The records of the Assessors were examined. It is suggested that more care be exercised in the preparing of the assessment records in order that they may be correct and complete.

Report of Public Health Nurse

1948

During the past year the following public health nursing visits in Warren have been made:

To the town.....	25
To schools.....	16
School Health.....	3
Pre-school.....	9
Infants.....	46
Maternal health.....	7
Crippled children.....	6
Morbidity.....	5
Tuberculosis.....	16

Student school health examinations in alternate elementary grades have been started this year. Follow up visits are being made to parents in an effort to assist with plans for getting many physical defects corrected as soon as possible. This phase of the work should prove to be one of the most valuable parts of the town public health program yet started.

Three Child Health Conferences were held in the Congregational Church auxiliary rooms. Physical examinations were given by Dr. Campbell to all the infants and preschools who attended, in addition to immunizations against three of the Communicable diseases, Smallpox, Diphtheria and Whooping Cough.

Four state Crippled Children's clinics were held in Rockland, in which children with deformities from the town are being followed.

PUBLIC HEALTH NURSING (continued)

As usual, two state chest X-ray clinics were held this year in Rockland, in which certain patients are being followed.

Mrs. Lucy Hawkins and I met once during the year with a group of the Health Council and Mrs. Annie Lehto, Chairman of the Council, has worked closely with me all year. Invaluable assistance has been given at Child Health Conferences and School clinics by members of the Health Council.

The work has progressed smoothly because of the interest and cooperation of the selectmen, health officer, school personnel and members of the Warren Health Council.

Respectfully submitted,

ADA W. McCONNELL, R. N.

Report of the Superintendent of Schools

To the Superintending School Committee and Citizens of Warren:

I wish to submit the following report for the municipal year 1948-49.

There haven't been any changes in the teaching personnel during the past year. The staff of teachers is the greatest single factor that determines the type of learning situation in your schools. The Warren schools have been more fortunate than most systems in this respect. Your superintendent appreciates the efficient service which your teachers are giving to the school system.

I listed four problems in relation to your elementary schools in last year's report. They were as follows: (1) the water supply for the New Elementary Building, (2) conveyance facilities, (3) housing for the lower four grades, and (4) the increase in enrollment which may be expected during the next few years. I wish to report on each of these and give to you any additional information that may be essential to the eventual solution of the problems.

The water supply for the New Elementary Building remains inadequate. Since there is a possibility of an addition to the present building, it would, in my opinion, appear advisable to consider this problem as a part of the project for the addition to the building.

When your rural schools were closed the conveying of the pupils to the village became an essential service. The school department must assume responsibility for the pupils from the time

SUPERINTENDENT'S REPORT (continued)

they are picked up by the conveyor until they are brought back at night. Parents have the right to expect that the transporta-

tion provided shall conserve the comfort, safety, and welfare of the children conveyed. Your school department is trying to meet the responsibility and has succeeded in improving the facilities on two of the routes.

The last two problems may well be considered as one. There haven't been any changes during the past year that make the situation any less urgent. The sills and stringers under the floor of the building at Mathews Corner were repaired during the past summer. This building should be retained by the town even though an addition is made to the New Elementary Building. There is a possibility that a fifth classroom will be needed to house the elementary pupils by 1950. The Mathews Corner building could be used, if necessary, for a number of years with a minimum of cost for repairs. The report of the Building Committee will provide an opportunity for you to give consideration to a solution of the problems of improving the conditions for the lower grades as well as making provision for the expanding school population.

The enrollment in your high school is slightly less this year. The enrollment will probably be up to sixty again next year. Six students are taking occupational courses in high schools in other towns. The law requires that the town pay the tuition and that the State reimburse the town for two-thirds of the cost. The students are enrolled as follows: Waldoboro High School—2 students, Rockland High School—1, Thomaston High School—1, Union High School—2.

The school budget for next year and the financial statement for the past year follow this part of the report. The 1948 tax rate

SUPERINTENDENT'S REPORT (continued)

for school maintenance in Warren was \$22.28 per \$1,000.00 of valuation as compared to an average for the State of \$24.83 per \$1,000.00.

In closing, I wish to express my appreciation for the cooperation and assistance that all have so generously and willingly given to the school system during the past year.

Respectfully submitted,

EARLE M. SPEAR

Auditor's Report

STATE OF MAINE STATE DEPARTMENT OF AUDIT AUGUSTA

June 7, 1948

Board of Selectmen
Warren,
Maine

Gentlemen:

In accordance with Chapter 16, Section 3 of the Revised Statutes of 1944 and at your request, the records of the Town of Warren have been audited by Auditor C. G. Hawes for the period February 1, 1947 to January 31, 1948 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been appropriately handled, with such exceptions as may be noted in the accompanying Comments.

Exhibits and Schedules incorporated in this report present the result of the financial operations of the Town for the period designated.

A recommendation is also offered which is believed to be worthy of your consideration.

All of which is respectfully submitted,

Very truly yours,

FRED M. BERRY,

State Auditor

AUDITOR'S REPORT (continued)

COMMENTS

Re: Audit of Accounts—Town of Warren

February 1, 1947 to January 31, 1948

Cash

Cash available for current expenditures at the year end amounted to \$6,754.29, which amount reconciled with the bank statement of the Thomaston National Bank as follows:

Balance per bank statement	\$9,726.62
Add-Deposits not credited (verified)	1,049.57
Total	10,776.19
Deduct-Outstanding Checks	4,021.90
Balance per records of Treasurer	\$6,754.29

All receipts as issued by the Treasurer were examined and found correctly recorded. All monies representing these receipts were compared with the deposits as shown on the bank statements.

Expenditures were made by check and were supported by warrants drawn by the Selectmen.

Accounts Receivable

This account is represented by the amount of \$103.80 which is due from the State for charity expenditures.

Taxes Receivable

The 1947 commitment of taxes of \$48,684.57 was added, compared with the records of the Assessors and found to be in agreement. The supplemental taxes amounted to \$240.90. The balance due on this commitment was represented by a list of unpaid taxes according to the records of the Collector.

The 1946 taxes receivable are listed on Schedule A-13.

AUDITOR'S REPORT (continued)

Tax Liens

The balance of tax liens at the year end amounted to \$3,023.04. Payments received during the year appeared to have been applied against the proper accounts. All tax liens on file with the Treasurer were examined.

Tax Deeds

No payments were received on tax deeds during the year.

Tax Acquired Property

During the year, sales of tax acquired property totaling \$120.00 were made. The net gain on sales amounted to \$108.68, thus reducing this account to \$779.73 at the year end.

Capital Reserve Fund

This fund amounted to \$4,963.51 at January 31, 1948, an increase of \$2,413.51 during the year.

Interest of \$38.51 earned on the investment of the fund, proceeds of \$375.00 from the sale of the Pleasantville Schoolhouse and lot, and the appropriation of \$2,000.00 made at the annual town meeting were added to and became a part of the fund.

Accounts Payable

The accounts payable amounted to \$243.10 at the year end made up of deductions for Withholding Taxes and Teachers' Pensions which were due governmental agencies.

Notes Payable

At the close of the year, notes payable totaled \$24,356.90, an increase of \$16,356.90 during the year.

Notes amounting to \$6,356.90 were issued for State Aid Highway expenditures, \$3,000.00 for Fire Department expenditures, and \$7,000.00 for General expenditures.

AUDITOR'S REPORT (continued)

Deficit

At the close of the year, the Deficit amounted to \$15,312.43, as compared with a Deficit of \$4,532.11 at the close of the previous year. The principal factors contributing to this change were notes issued during the year and the net loss from departmental operations.

Trust Funds

The investments of the various funds were examined. New cemetery funds received during the year amounted to \$1,300.00 of which \$1,000.00 was invested and the balance of \$300.00 remained in the General Fund cash. The income was checked and \$364.54 was found to be in the General Fund cash.

An examination of the investments of the several trust funds indicated that certain of these investments may not be within the provisions of Chapter 80, Section 106 of the Revised Statutes of 1944, which reads, in part:

"City and town officers . . . shall hereafter invest all permanent funds . . . in the legal obligations of the United States of America; the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, and Pennsylvania, and the bonds of the several counties, cities, and towns in the several states above named . . . and the bonds of water districts located in the State of Maine . . . and, except sinking funds, may invest any of said funds in accordance with the laws of the state governing the investment of the funds of savings banks as enumerated in sub-sections I to IX of section 38 of chapter 55, or may deposit the same, including sinking funds, on time deposit in banks or trust companies, organized under the laws of this state or of the United States, and not otherwise."

AUDITOR'S REPORT (continued)

General

The 1947 excise tax receipts, Nos. 126 to 600, and those for 1948, Nos. 1 to 213, were checked and it was ascertained that all collections had been deposited with the Treasurer.

Net overdrafts were noted in the appropriation accounts. The Attorney General has rendered an opinion on this point and it is included for the benefit of the municipal officers.

"The municipal officers are bound by the terms of the articles in the warrant calling the meeting providing for the expenditure of money. The officers should not spend more than the taxpayers appropriated at town meeting, unless the statute expressly authorizes an expenditure in excess of the appropriation."

The provisions of Chapter 84, Section 81 of the Revised Statutes of 1944, however, relate to expenditures of monies for highway purposes and permit overdrafts in cases of emergencies to the extent of 15% of the appropriation.

A review of the valuation records indicated the possibility of strengthening the descriptions of properties.

No external verification was made of the taxes receivable or the tax liens as the detail of these accounts was printed in the annual town report.

An examination of the records of the Town Clerk indicated that the oaths of office of the town officers had not been recorded as required by the provisions of Chapter 80, Section 37 of the Revised Statutes of 1944 and related law court decisions.

The balances of the School accounts were checked to the report of the Superintendent which was printed in the annual town report.

The bonds of the Tax Collector and Treasurer were examined and found to be satisfactory.

Recommendation

It is recommended that at the close of the 1948-49 year, all trust fund income in the General Fund be withdrawn and deposited in a separate checking account.

Report of Public Health Nurse

The Public Health Nursing program has been a very full one this year. Mrs. Ada McConnell who was the Public Health Nurse for the first half of the year, did hearing tests with the Audiometer for all children above the third grades. In the spring two school immunization clinics were held, at which time a number of Smallpox and Diphtheria immunizations were given by Dr. Campbell.

Four successful Child Health Conferences were held during the summer months. A large number of infants and pre-school children were examined and immunized against Whooping Cough, Smallpox, Diphtheria and Tetanus.

In the fall, assistance was given Dr. Campbell at the schools when he did physical examinations of children in the alternate grades.

The Warren Health Council under the leadership of Mrs. Annie Lehto has given invaluable assistance in the various health programs. Mrs. Marion Manner and Mrs. George Buck assisted in the planning and conduct of the Child Health Conferences and School Clinics.

Several children have received close medical supervision in the Crippled Children's Service Clinics in Rockland and others have been referred to the State Bureau of Health Pediatric Clinic at Waterville.

As is usual home visiting has been an important service. The following statistics will indicate the type and number of nursing visits made in Warren:

To the Schools—20

To infants and pre-school children—68

PUBLIC HEALTH NURSING (continued)

To school children—16

To crippled children—11

To Tuberculosis patients and contacts—4

To all others—18

Total number of visits to Warren—30

The assistance and cooperation of all who have made this year's program possible is greatly appreciated. It is a privilege to work in a community where such interest in the promotion of health and spirit of helpfulness is shown.

Respectfully submitted,

ESTHER K. LONG, R. N.

Report of the Superintendent of Schools

To the Superintending School Committee and Citizens of Warren:

I wish to submit the following report for the Municipal year 1949-50:

The most important event of the past year was the construction of the two-room addition to the elementary building. The addition consists of two classrooms, a teachers' room, and toilets for the first grade pupils. The construction was not completed in time for the Building Committee to finish the grading last fall. I hope that the Town will authorize the committee to continue the work in the spring. The new rooms have been in use since the opening of the winter term and are being enjoyed by both pupils and teachers.

The town now has a modern four-room building that should be a source of pride and satisfaction—satisfaction in the knowledge that you have made it possible to provide greater learning opportunities for the pupils in the lower grades. Your School Committee and Superintendent wish to thank the Building Committee, the organizations, and citizens who have helped in making the addition to the building possible. A statement from the Building Committee appears elsewhere in this report.

The Hinckley Corner School was closed at the beginning of the winter term. The four lower grades have been assigned as follows: (1) Grade One to the East room in the New Building, (2) Grade Two and part of Grade Three to the West room in the New Building, and (3) Grade Four and a part of Grade Three to the Mathews Corner School. The three teachers required for the four lower grades have approximately thirty pupils to a room compared with a pupil load of fifty-two pupils in the Hinckley Corner School before the change. It will be necessary to continue

SUPERINTENDENT'S REPORT (continued)

to use the Mathews Corner School for an indefinite time. The repairs that were made last year and the installation of more adequate lighting this year have greatly improved the building.

The organizations in the community have started on the project of initiating a School Lunch Program. The basement of the elementary building provides adequate room for the kitchen and serving space. The project is deserving of community support as a lunch program in your schools will make a real contribution to the welfare of your children.

The Academy Trustees have made another major improvement in the building occupied by the High School. The new steam heating plant with automatic oil heat is proving very satisfactory. The School Department greatly appreciates the continued interest of the Trustees in improving the building.

The school budget for next year and the financial statement for the past year follow this part of the report. The principal reasons for the increases in the recommended appropriations are: (1) the additional teaching position established in the lower grades and (2) the additional expense of operating and maintaining five elementary rooms compared with the four of previous years. The 1949 tax rate for school maintenance in Warren was \$21.34 as compared to an average for the State of \$25.49 per \$1,000.00.

Respectfully submitted,

EARLE M. SPEAR

Auditor's Report

STATE OF MAINE STATE DEPARTMENT OF AUDIT AUGUSTA

Board of Selectmen
Warren
Maine

June 27, 1949

Gentlemen:

In accordance with Chapter 16, Section 3 of the Revised Statutes of 1944, and at your request, the records of the Town of Warren have been audited by Auditor C. G. Hawes for the period February 1, 1948 to February 14, 1949 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been appropriately handled, with such exceptions as may be noted in the accompanying Comments.

Exhibits and Schedules incorporated in this report present the result of the financial operations of the Town for the period designated.

All of which is respectfully submitted,

Very truly yours,

FRED M. BERRY

State Auditor

AUDITOR'S REPORT (continued)

COMMENTS

Re: Audit of Accounts—Town of Warren

February 1, 1948 to February 14, 1949

An audit has been completed of the financial accounts and transactions of the Town of Warren for the year ended February 14, 1949.

Cash

The cash balance at February 14, 1949 amounted to \$7,551.41. This amount reconciled with the bank statement of the Thomaston National Bank, but differed with the records of the Treasurer in the amount of \$1.20 due to an error in a deposit.

All receipts, as recorded, were found to have been promptly deposited in the bank.

Disbursements were made by check and all warrants were paid in full.

Accounts Receivable

The accounts receivable totaled \$578.46 at the year end. The complete detail of the accounts receivable appears on Schedule A-1.

Taxes Receivable

The 1948 commitment of taxes of \$57,390.54 was added and found to be in agreement with the warrant of the Assessors. This commitment together with supplemental taxes of \$222.41 made a total charge to the Collector of \$57,612.95. Of this amount \$54,663.05 was collected, \$590.38 abated, \$407.98 represented discounts, \$.07 was due from the Collector and \$1,978.49 remained outstanding at the year end.

AUDITOR'S REPORT (continued)

Prior years' taxes receivable are listed in detail on Schedule A-14.

It was noted that the Tax Collector had not secured the unpaid 1947 taxes assessed against real estate by tax liens or deeds.

Requests for verification were mailed to a representative number of taxpayers whose accounts were outstanding at the year end. Should any variations result from these verifications, the municipal officers will be notified accordingly.

Tax Liens

All recorded cash collections were traced to the credit of individual accounts and all unredeemed tax liens on file with the Treasurer were examined.

Capital Reserve Fund

This fund amounted to \$7,053.54, at February 14, 1949, which represented an increase of \$2,090.03 over the balance at the beginning of the year.

Interest of \$90.03 earned on the investment of the fund and the appropriation of \$2,000.00 made at the annual Town meeting were added to and became part of the fund.

Accounts Payable

Accounts payable amounted to \$301.10 and are listed on Schedule A-7.

Notes Payable

At the close of the year, notes payable totaled \$19,881.90 which represented a net decrease of \$4,475.00.

New notes in the amount of \$5,500.00 were issued during the year and notes amounting to \$9,975.00 were paid.

AUDITOR'S REPORT (continued)

Deficit

The deficit of the town was decreased by \$6,966.41 during the year. A complete analysis of the items contributing to this decrease is presented on Exhibit E.

Trust Funds

The investments of the various funds were examined. New cemetery funds received during the year amounted to \$1,525.00. At the close of the year all trust fund income in the general fund was withdrawn and deposited in a separate checking account.

An examination of the investments of the several trust funds indicated that certain of these investments may not be within the provisions of Chapter 80, Section 106 of the Revised Statutes of 1944.

General

The 1948 excise tax receipts numbers 214 to 701 and those for 1949 numbers 1 to 92 were checked and it was ascertained that an overdeposit of \$18.43 had been made in the 1948 excise tax account. This has been set up as an Account Payable.

A net overdraft of \$2,939.01 has been charged to the deficit account. The Attorney General has rendered an opinion on this point and it is included for the benefit of the municipal officers.

"The municipal officers are bound by the terms of the articles in the warrant calling the meeting providing for the expenditure of money. The officers should not spend more than the taxpayers appropriated at town meeting, unless the statute expressly authorizes an expenditure in excess of the appropriation."

AUDITOR'S REPORT (continued)

The provisions of Chapter 84 of the Revised Statutes of 1944, however, relate to expenditures of monies for highway purposes and permit overdrafts in cases of emergencies to the extent of 15 per cent of the appropriation.

The overlay of \$724.74 was within the legal limit of 5 per cent of the appropriations plus state and county taxes.

A review of the valuation records indicated the possibility of strengthening the description of properties.

The balances of the school accounts were verified with the report of the Superintendent.

The following corporate surety bonds were found on file:

Treasurer.....	10,000.00
American Fidelity Co.	No. S-751310
Tax Collector.....	10,000.00
American Fidelity Co.	No. S-751808
Excise Tax Collector.....	500.00

STATE OF MAINE
STATE DEPARTMENT OF AUDIT
AUGUSTA

February 15, 1950

Mr. Maurice E. Davis, Chairman
Board of Selectmen
Warren, Maine

Dear Sir:

Thank you for your request to have this Department make an audit of the books and records of the Town of Warren for the 1949 municipal year.

It is our policy to give preference to the municipalities who apply first, therefore, due to previous commitments, it will be impossible for us to do this work before the week of May 8. We have, however, scheduled this audit for that week.

As you know it is difficult to fulfill an exacting schedule due to many circumstances beyond our control. We have no reason to believe, however, at this time that the work cannot be completed as scheduled. If we find that a change is necessary, you will be advised accordingly.

Very truly yours,

JOHN T. SINGER

Municipal Auditor
